SAWA Phase 1A

Soil photo collection - field quick reference

Scan for the full protocol

EVERY SHOT, EVERY TIME

DISTANCE	15 cm (+/- 2) - ruler-checked, lens to soil surface
ANGLE	90 degrees straight down - level crosshairs merged, yellow
ZOOM	1x always - never 2x (it is a digital crop)
FLASH	OFF - always, no exceptions
LIGHT	Open shade or light overcast, 10:00-15:00
	No direct sun, no golden hour, no shadow of your own on the dish
DISH	Same white dish every sample, soil leveled, no dish showing
CARD	18% grey card at the same edge of the frame, every shot
SAMPLE	~500 g from the side wall at depth, debris out, do not dry it
SHOTS	3 per sample; tap centre to focus; exposure slider at 0
CHECK	Sharp / even light / fills frame / no glare / true colour / not dark
GPS	Location Services ON for Camera, Precise Location ON
TRANSFER	Cable, AirDrop or iCloud originals - NEVER WhatsApp

BEFORE YOU LEAVE THE SITE - CHECK ALL SIX

- [ ] Sharp: individual particles resolvable at 100% zoom
- [ ] Evenly lit: no hard shadow, no blown-white patch, no dark corner
- [ ] Fills the frame: soil dominant, no sky, no horizon, no hands or shoes
- [ ] No glare: no specular white hotspot
- [ ] Colour true: screen matches the soil in front of you
- [ ] Not too dark: Night mode never engaged
